Portfolio

<https://daftput.github.io/portfolio/index.html>

I'm a multidisciplinary designer currently based in Osaka, originally from Bangkok. With a total of 7 years of experience in professional environments and various freelance projects with companies and local businesses. I am specialized in creating digital media, print and merchandise designs, utilizing my diverse background in industrial design and graphic design, as well as my personal interest in illustration and innovations in both industrial and automotive field.

My approach to design emphasizes the design process and collaborative works, I ensure each work delivers on both creativity and create meaningful solutions, Striving to achieve the best outcome that meets the client and project goals and objectives
